

# **Bizstarpower**

**Empowering Entrepreneurs to Build Successful Businesses**

## **Monthly Live Entrepreneur Issues**

In these sessions we explore issues you are having and potential solutions. Here are just a few frequent issues:

Finding Customers

The right path to marketing

Criticism and self-doubt

When to hire

Building successful teams

This will be a live session held once a month. The session will be voice recorded for you in the near future. Of course you will gain the most by participating and being able to ask your own urgent questions. We will send you reminders and it will be posted on website calendar.

I will start with a subjects offered in discussion boards so be sure and participate. Although I consider myself highly knowledgeable in many subjects. Fellow members have tons of valuable information, skills and feedback to share and it's awesome to share your experiences and knowledge too. Reminders will be sent prior to the sessions but it's always good to put it on your calendar. It's also good to prepare questions ahead of time.
